THE THESIS

What the data says about you

You are past the starting line. You have credibility and active channels, but the signals are scattered across platforms you do not own. Consolidating to one name-domain home and one handle is the unlock.

DENNIS'S READ

You have real proof and an active presence. The gap is structure: a clear entity home and consistent name string would turn scattered signals into a single, citable identity.

Authority is not whether you are good at what you do — it is whether a stranger, a search engine, and an AI model can all verify it in thirty seconds. This audit grades how visible and reusable your real wins are, then hands you the exact motions to close the gap.

THE MOTIONS THIS AUDIT UNLOCKS

1 Entity home

A name-domain page Google and AI treat as your canonical source.

2 Knowledge Panel

The boxed result on the right of a Google search for your name.

3 AI citability

Being named when someone asks ChatGPT or Perplexity about your field.

4 Dollar-a-day

Cheap, compounding boosts on your single best proof asset per channel.

KNOWLEDGE GRAPH

Your entity, as machines see it

WHAT THE GRAPH HOLDS

Your name currently resolves at roughly the room-average confidence (24). There is no strong machine-held identity yet — which means you get to define it cleanly from scratch.

KG CONFIDENCE

Room average confidence: 24

A real, specific role

Your position as Founder & Chief Strategist, Sauv Strategies is concrete and verifiable — clarity of role is the starting point for a clean entity.

THE ROOM

How you stack up vs. 48 attendees

Authority is relative. Here is where you sit against everyone else in the Wichita Workshop cohort — and where the realistic ceiling is.

WHAT THE NUMBERS MEAN

You are in the top tier of the room. The competitive frame flips: you are no longer trying to catch up, you are defending and extending a lead. Lock in the Knowledge Panel before peers do.

DESIGN DECISION — YOUR ENTITY HOME

You have a partial home. Decide which single URL is canonical, then consolidate. Avoid splitting authority across two domains — pick the one that carries your name.

SEARCH & AI VISIBILITY

What a stranger finds in 30 seconds

THE DILIGENCE MOMENT

A prospect, reporter, or partner Googles your name. An AI model is asked 'who is Tori Deatherage?' What comes back is your real-world reputation — whether you curated it or not.

GOOGLE SERP

LinkedIn and social profiles probably dominate your name search. Useful, but you don't control the framing. An owned home should sit at #1.

AI ANSWER ENGINES

With real corroboration online, AI models can probably describe you — but verify they cite the right role and link your owned home, not a stale profile.

BRAND-SERP NOTE

Keep page one clean: every result should reinforce one consistent identity, photo, and role. Reclaim or redirect any outdated or off-brand listings.

DOLLAR-A-DAY

Where to spend your first \$3/day

You don't buy reach — you boost proof. Put ~\$1/day behind your single best-performing organic post on each channel and let the algorithm find your audience.

LinkedIn · \$1/day

Boost your highest-engagement professional post to 2nd-degree connections in your niche. Best for B2B authority.

Meta (FB/IG) · \$1/day

Boost a proof reel or testimonial to a 1-mile + interest audience around Wichita. Best for local trust.

YouTube · \$1/day

Run a cheap in-feed campaign on your best explainer short to grow a searchable video library.

GCT PER CHANNEL

Goal = one clear outcome per channel. Content = your existing proof. Targeting = the narrowest audience that still contains buyers. Refine weekly.

Illustrative, not guaranteed — modeled from the motions in this audit. Your inputs (effort, niche, starting point) move the numbers.

QUESTIONS FOR YOU — TO SHARPEN YOUR GCT

? @heretowine vs. professional identity: Is @heretowine intentionally a personal/lifestyle account separate from Sauv Strategies, or would she want to unify under a professional handle? What's her comfort level with mixing personal content and professional content on the same channel?

? torideatherage.com: Does she own torideatherage.com? The domain resolves but returns a bot-challenge redirect - is she aware of this? Does she want to build a personal site there, or redirect it to sauvstrategies.com?

? Market Advisory Group VP role: What is the nature of her VP of Marketing role at Market Advisory Group - is this a contract client, part-time employee role, or barter arrangement? Does she want it on her personal brand narrative?

? Wine About Cancer as personal brand anchor: Wine About Cancer is now in its 10th year - a remarkable community achievement. Is she open to making this a primary personal authority story (not just an annual event she organizes)? It's arguably her strongest public proof of leadership and community impact.
